Stock Commission Brokers Do Not Expect Early Betterment of This State of Things.

PUBLIC OUT OF MARKET

REBOUND IN LONDON PRICE OF COPPER.

New York, Oct. 4.-Dealings in stocks were the smallest for any day thus far this year, and discouraged commission brokers express small hope of any early betterment of this state of things. Public interest seems non-existent, and the sluggish drift of prices today represented nothing more than the tentative maneuvers of a small professional group to feel the tone. The bears are influenced by some recent unfortunate ventures in which the market supply of stock proved scanty and drove them to cover at a loss, and there is no encouragement to buy stocks for an advance where the demand is stagnant. That stocks are in scanty supply, however, was an observed fact in today's market. There was a slow absorption at some points in the market, but it was only at price recessions that it was manifest.

The preliminary estimates of the week's currency movement offered one convinc- Santos, Sc. ing motive for the repression of speculative activity in the enormous drain that is making on New York banks' cash re-The feature of the currency movement is the estimate made by the banks of the heavy movement of balance away from New York on the express away from New York on the express movement. It appears that \$3,500,000 to \$4,700,000 has just left New York. The indicated cash loss of \$4,800,000 to \$5,300,000, while the surplus item stood last week at \$5,464,675, explains the tightening of the money market. The interior movement of currency evidently is rising to a full tide and is expected to continue through a part of the present month.

part of the present month.

The stock market does not call for extended comment. There was a sharp rebound in the London price of copper, and some benefit accrued to copper securities there, but in New York the metal was lowered in the questions at the metal exlowered in the quotations at the metal exchange once more. More than one-third of the day's scanty total of stock sales was completed in the first hour, and stagnation overcame the late market com-

GRAIN AND PROVISIONS.

Chicago, Oct. 4.-Liberal realizing sales caused a weak market in wheat here to-day. At the close December wheat was off ½. Corn was a shade lower. Oats were up 1/8. Provisions were unchanged to a shade higher.

At the opening of the day's market much of the long wheat was offered, holders being desirous to realize on the sharp bulge of yesterday. The offerings were free throughout the day. The market was also depressed by a decline in the export demand and the failure of the Liverpool market to fully respond to yesterday's advance here. Prices stiffened somewhat about the middle of the day on the report of delayed seeding in Texas and Oklahoma. A slight revival in export business also aided the bulls just prior to the close. Renewed realizing, however, caused a weak close to the market. December opened 4.0% higher to 1.0% lower. At the opening of the day's market

Local receipts were 429 cars, with 146 cars Oats were firm the greater part of the day because of the low estimate on this year's crop, made by a well-known expert.

A string of ten samples, the assay sheets on which were copied for Mr. Leiblein's benefit, shows the average value of the specialist in mill construction. This means that when the new mill is ready for business the district will have access to a plant that is right up to the minute in all its details.

Mr. Scott says that the mines of the Goldfield district are producting more another milling plant is keenly felt right now. He and his associates propose to relieve the situation and do all they can to help the district to forge ahead. Mr. Scott will be here for another day or two.
